

AYMAN ABDULLAH HASAN MOHAMMED

Civil Engineering Student | Expected Graduate 2027

Al Qassim, Saudi Arabia | +966 55 986 6341 | aimanalrahabi@gmail.com | LinkedIn: Ayman Abdullah CE

PROFESSIONAL SUMMARY

Motivated Civil Engineering student with a strong academic record (GPA: 4.60/5.00) and hands-on exposure to engineering consultancy work. Skilled in Building Information Modeling (BIM), structural analysis, construction coordination, and engineering software including Revit, AutoCAD, Robot Structural Analysis, and Navisworks. Seeking an opportunity to apply technical knowledge, practical training, and problem-solving skills in civil engineering projects.

EDUCATION

Bachelor of Science in Civil Engineering — Qassim University, Saudi Arabia

Expected Graduation: 2027 | GPA: 4.60 / 5.00

INTERNSHIP EXPERIENCE

Civil Engineering Trainee — Fadaa Engineering Consultancy

- Gained practical exposure to engineering consultancy activities and the professional workflow of civil engineering projects.
- Supported engineering tasks involving technical drawings, project coordination, and the review of project-related information.
- Developed an understanding of engineering documentation, communication, and collaboration within a professional consultancy environment.

ACADEMIC PROJECT

Water Distribution System Design

- Collaborated with a team to design a water distribution system and develop an organized engineering solution based on project requirements.
- Contributed to system planning, engineering calculations, and the preparation of project documentation.
- Strengthened skills in teamwork, technical problem-solving, and engineering design.

CERTIFICATIONS & TRAINING

- Building Information Modeling (BIM) using Revit — Technical and Vocational Training Corporation (TVTC), Aug 2025 | 40 Hours
- Structural Analysis using Robot Structural Analysis — Technical and Vocational Training Corporation (TVTC), Aug 2025 | 30 Hours
- Navisworks Training & Clash Detection — Technical and Vocational Training Corporation (TVTC), Sep 2025 | 12 Hours
- Architectural Home Design — Applied College, Qassim University, Jun 2024 | 8 Hours

TECHNICAL SKILLS

Engineering Software: Autodesk Revit, AutoCAD, Robot Structural Analysis, Navisworks

Engineering Knowledge: Structural Analysis & Design, Building Information Modeling (BIM), Clash Detection, Water Distribution System Design, Blueprint & Drawing Reading

Professional Skills: Teamwork & Collaboration, Problem Solving, Time Management, Adaptability, Effective Communication

LANGUAGES

Arabic: Native | English: Full Professional Proficiency
